Aquaculture and Fisheries CTE Framework Sequence

Pathways to Green Jobs

Aquaculture and Fisheries (A&F) job openings are expected to increase in coming years, yet employers struggle to find applicants with the entry level skills and experience needed to enter this field.

Washington State is the nation's largest industry for commercial fisheries, aquaculture, and seafood businesses with a value of \$1.2 billion. The industry provides almost 10,000 jobs and more than half a billion dollars in wages.

PEI's A&F high school course sequence prepares the next generation to succeed in the workforce through career connected learning at employer sites.

Standards Alignment:

- Designed for use in Career and Technical Education (CTE) programs
- Next Generation Science Standards
- Agriculture, Food and Natural Resources Career Cluster
- 21st Century Skills
- Washington State Mathematics Learning Standards

Sequence Overview:

- Introduction to Aquaculture and Fisheries (A&F)
 - 1 credit: Lab science or CTE
- Advanced A&F
 - 1 credit: Lab science, math or CTE
 - Designed for dual credit
